Who We Are

We are the next-generation **ICT Systems integrator** providing affordable, cutting edge, and viable ICT solutions to businesses across East Africa. We combine our business and technical expertise to maximize your systems' potential.

Our focus is to help businesses thrive in an ever-changing world by deploying solutions that help clients get ahead of challenges, outpace change and solve real-world business problems sooner. With the current economic times, we deliver systems that are on time, run smoothly, are budget-friendly, and meet the business requirements. We expertly steer our clients through their technology journey to help them act with the insight, precision, and speed needed to stay relevant today and be ready for tomorrow in a rapidly changing tech world.

Sub-Saharan Africa. HQ in Kampala, Uganda

Dentech is a true Pan-African company, with an operational presence in East Africa

What we stand for

.....

Mission

To provide bespoke solutions for our customers across the Sub-Saharan Africa by choosing technology and hardware in such a way that it will provide concrete business benefits.

Vision

To be 'The go to' ELV, ICT and integrated communications company for businesses across Sub-Saharan Africa

Research & Development

We are here to meet your unique business needs

Due to the ever-changing business landscape and technology, you need a partner who not only understands your business needs but also the evolving trends to help you grow your business.

At Dentech we embrace change because we know improved systems translate to increased performance, service and value.

We Focus On Africa's Most Emerging Industries

Our core focus is on Hospitality, Healthcare, Corporates, and Learning Institutions. We focus on these four verticals as we believe they are the most emerging markets in Africa with a dire need for tech and automation. Thus, based on our profound understanding of the ever-changing technological needs in the markets, we foster a global vision for the industries while delivering sustainable transformation.

CLIENT SUPPORT

Friendly, Accessible & Reliable Service

We offer our clients friendly, accessible and reliable support. We aim to integrate the voice of our clients to capture their needs and requirements in all our business decisions to ensure customer satisfaction.

We work with the world's leading ICT systems manufacturers to deliver market-leading innovative solutions. Our partner network allows us to design the right solution that suits unique business needs.
